### Message from Alison and the team

Hello everyone, we've had another busy week and we have spent a lot of time talking to families over the telephone and through Zoom calls.

Across the Trust we are averaging 500+ per week! We have also sent 1000's texts since the start of the lockdown and this is our 15th Newsletter. We hope that the communication and interaction is helping you all at this difficult and very wearing time. Please contact us if you need someone to talk to, we're all here to help.

Something new this week was a trial by Redwood Park into running a Postcode Activity programme when very small groups of children met up with staff in a suitable open outdoor space near to their homes in Portsmouth, to take part in some physical or craft activities. This went down very well and we may try it again in the future.

Next week you will be receiving a letter outlining the arrangements we are making for September, subject to government guidance and and future changes that we cannot yet plan for. We are organising a gradual return to school during the week starting 7th September with careful thought being given to new pupils and their transitions. PODS will still exist but they will be bigger. Please do take the time to read the information when it arrives and please do ask any questions you may have after you have received it. In the meantime enjoy the lovely photographs sent over this week and have a good weekend.

## ROUND UP OF THE WEEK

BRAVE!
